

Pokémon Emerald Seaglass Documentation

More Information + Donations: <https://ko-fi.com/nemo622>

This document contains pretty much everything you need to know for an Emerald Seaglass playthrough! Below include details about features, wild encounters, Pokémon type changes, story changes, easter eggs, and more.

REMEMBER: the in-game PokéDex has been upgraded to show a ton more detailed information about Pokémon, including evolution methods and movesets! Please remember to use it!

How to Play

First, get a clean Pokémon Emerald rom and the Pokémon Emerald Seaglass patch. Visit [this site](#) to patch the rom, and the patched file you download should be good to play! :)

FEATURES

- Complete **visual overhaul**, thanks to [Zaebucca's](#) tiles!
 - Style resembles old 90's RPGs, like an upgraded Pokémon GSC style
 - Pokémon use GBC-style sprites, from Generation 2 and talented artists like [Egg](#)
 - Overworld NPCs have a more retro art style, with a white outline to make them pop!
 - Upgraded Pokédex with many helpful new features, inspired by HGSS dex but in GBC style
- New **additions to some maps** to increase interesting events
 - Minigames in more towns with fun rewards (more details below)
 - Helpful item merchants in a few towns, with stat-changing and evolution items
 - Pacifidlog Town is accessible from Slateport and has grass with unique Pokémon!
- All Pokémon from **Generations 1-3** are available, spread out enough to keep it from feeling bloated!
 - **Cross-gen evolutions** have also been added, up to Gen 9!
 - Pokémon use modified USUM movesets when applicable (many Pokémon also have more coverage moves and more interesting sets in general)
 - Almost all Pokémon have received some changes! From slight stat changes to new types, each Pokémon should feel more unique to use
 - Trainers use a wider variety of Pokémon (Team Aqua and Magma fights are finally interesting!)
 - Additional available Pokémon: Spiky-Ear Pichu, Tinkaton line, and Applin line (details on obtaining in documentation)
- Overworld **Following Pokémon!**
- Numerous upgrades to the battle system:
 - Changes from pokeemerald-expansion to update battle engine, such as Fairy type, Physical/Special split, etc.
 - **Party-wide EXP Share**, with soft level caps to balance this change
 - This is **NOT** a "difficulty hack"! These changes just cut down on some grind while still keeping a good balance
 - EXP. Share is given by Scott in Petalburg, just after Wally's catching tutorial
 - Soft **level cap** allows for you to reach the gym leader's max, then halves exp gain for the next few levels, then cuts it more
 - Battle Gimmick: Z-Power Ring and Z-Crystals can be obtained from the DEVON Corporation after delivering Steven's letter

- Completely optional and out of the way - if you don't like Z-Moves, don't even bother getting the Z-Ring!
- More **minigames** to break up Pokémon battles!
 - **SCUBA SAFARI**, Pacifidlog Town: A combination of the Safari Zone and Bug Catching Contest from Johto, with 200 steps or 5 encounters in a dedicated underwater area to find a high-scoring Pokémon. Various helpful rewards are provided, including the HM Waterfall. Pacifidlog Town is also accessible from Slateport through an NPC with a Kirlia by the Pokémon Center after beating Team Aqua in the Museum.
 - **PINBALL**, Mauville Game Corner and Mossdeep Game Corner: Four unique pinball games (SEEL, GENGAR, MEOWTH, and DIGLETT) are in both Game Corners. Beating the games award PINBALL POINTs, which can be used to get rare Pokéballs, items, and even some Alolan forms!
 - **CONTESTS**: The Contest Hall has been moved to Verdanturf Town, and the Verdanturf Battle Tent has been moved to Lilycove! This will let the player enter contests much earlier, hopefully engaging with them much more
 - An NPC in the Verdanturf Contest Hall can reset a Pokémon's SHEEN!
 - **RUSTBORO WISHING WELL**: On the east side of Rustboro City sits an old Wishing Well. Using a Wishing Star item at the well summons a random Pokémon, similar to Wonder Trade or a Gacha system!
- Various QoL Changes, including:
 - Type Effectiveness shown in battle
 - **HM System revamp**: if HM is in bag and the right badge is owned, Pokémon that can learn the HMs can naturally use them
 - Shiny odds 1/4096 by default, but **Shiny Charm is in Player PC** to increase odds (gives 5 extra rerolls!)
 - Second Shiny Charm, giving even more rerolls, available in Fortree City! Interact with all shrines from east to west in order, and the second Shiny Charm will be in the final shrine (left of the Pokémon Center)
 - Press R to toggle auto-run
 - Press A in Summary Screen to view IVs and EVs; All Pokémon have at least 2 perfect IV's
 - Legendaries can all be encountered, mostly before Elite Four - details in documentation

- Pokémon **Box Link**, allowing access to PC from anywhere (obtained from Scientist NPC in Slateport City Pokémon Center)
- **Cheat Codes** / Mystery Gift function! Interact with GameCube in Player's room
 - Codes can provide Rare Candies, Master Balls, and a few cool Pokémon (Codes listed in documentation!)
- Pokémon types shown in battle, and press the L button to show more move information!
- **Hard Mode**, disabling level caps, and more options can be toggled with the book on the player's desk in their room!

Pokémon Encounters and Types

Below is a table of all available Pokémon in Emerald Seaglass, along with their typing and locations. Note that many Pokémon have changed types to make them more interesting or fun to use.

All Generation 1-3 Pokémon are available, along with their cross-gen evolutions (Weavile, Annihilape, etc.)!

There are also some “easter egg” Pokémon, discussed below the table.

#	Pokémon Name	Type 1	Type 2	Location
1	Bulbasaur	Grass	Poison	Wild: 114

420	Jirachi	Steel	Psychic	Event, Mossdeep City
421	Deoxys	Psychic		Event, Birth Island

Extra, Easter Egg Pokémon Details

There are a few extra Pokémon not from the first 3 generations that can be obtained in this hack. I kept them pretty limited and out-of-the-way, as they're meant to be more like easter eggs to be discovered.

- Spiky Eared Pichu - From HGSS, and has higher stats and a unique moveset to make it (relatively) usable. Obtained from Professor Elm in Fallarbor Town after collecting 50 unique Pokémon.
- Tinkaton - Obtainable as a Tinkatink egg from a Team Aqua Grunt on Route 115 (South of Meteor Falls, North of Rustboro).

- Applin - Found in Littleroot Town. Evolution items (Tart, Sweet, and Candy Apples) found in Pacifidlog Town.

Legendary Encounter Details

All legendary Pokémon from the first 3 generations can be encountered in Pokémon Emerald Seaglass. Details can be read below, but if you'd prefer a spoiler-free experience, stick to the hints in the table above!

- **Jirachi** obtained by talking to the woman next to the White Rock, then interacting with Mossdeep White Rock with Wishing Star in bag

- **Kyogre**, **Groudon**, the **Regi Trio**, and **Rayquaza** are all encountered in their normal Emerald ways

Other legendaries, which were locked behind exclusive events or completely absent from vanilla Emerald, are now accessible through a storyline with a Sailor in Mossdeep, distinguished by a unique eyepatch and slightly different clothes. These should mostly be possible before the Elite Four!

- **Latios/Latias** found on Southern Island - Eon Ticket obtained by speaking to Mossdeep Sailor (distinguished by his eye patch, on hill in Mossdeep near large telescope) after beating the Mossdeep Gym. This also unlocks the SS Tidal ship and more legendary encounter quests. Which Lati is encountered is RANDOM, and it is reset with every Elite Four completion. If you're looking for a specific one, save the game BEFORE going to the island!!
- **Mew** found on Faraway Island - Old Sea Map obtained by speaking to Mossdeep Sailor with Pokédex entry for Rhydon (Encounter Lv. 30)
- **Ho-oh** and **Lugia** found on Navel Rock - Mystic Ticket from showing Mossdeep Sailor Pokédex entry for Octillery (Water/Fire Type) (Both encounters Lv. 50)
- **Deoxys** found on Birth Island - Aurora Ticket from showing Mossdeep Sailor Pokédex entry for Rayquaza (Lv. 70)

The following Legendaries found after completing Mossdeep Sailor's first 3 quests (triggered when he says he's "going exploring for more legendaries"):

- **Celebi** found on Route 119 - interact with Sailor in front of Birdhouse/Shrine North of the Weather Institute (Lv. 40)
- **Mewtwo** found in Steven's Room of Granite Cave - interact with Sailor in room (Lv. 80)

- **Raikou, Entei, and Suicune** are in the Shoal Cave Ice Room - interacting with Sailor summons one of the trio at random (Lv. 50), can be reset by defeating Elite Four again
- **Articuno, Zapdos, and Moltres** are on the summit of Mt. Pyre - interacting with the Sailor summons one of the trio at random (Lv. 50), can be reset by defeating Elite Four again

Important Item Locations

This category includes things like evolution items and helpful items that are a bit out of the way. If an item is not listed, it is likely available in the normal Emerald location!

Evolution Items

- Water Stone, Thunder Stone, Fire Stone, Sun Stone, and Moon Stone available at a Slateport City marketplace
- Leaf Stone, Ice Stone, Dawn Stone, Dusk Stone, and Shiny Stone available at Lavaridge Town Herb Shop
- King's Rock item on Route 106, just above Granite Cave entrance
- Dragon Scale item on Route 118
- Upgrade item in Weather Institute, Route 119
- Dubious Disc item in Team Aqua Hideout
- Metal Coat item available in Rusturf Tunnel and Abandoned Ship
- Razor Fang item on Route 119
- Razor Claw item on Route 121
- Prism Scale item on Route 127 (Can also evolve Feebas with 140 Beauty from contests)
- Black Augurite item on Route 119
- Tart Apple, Sweet Apple, and Candy Apple all available from apple seller in Pacifidlog Town
- Peat Block item in southern peninsula area of Lilycove
- Electirizer item in New Mauville (replaces Ultra Ball item on ground)
- Magmarizer item in Jagged Pass (replaces Burn Heal on ground)
- **ALL** evolution items available at a stand in Sootopolis City, North of the Pokémon Center

Helpful Key Items

- Pokémon Box Link available from a Scientist in the Slateport City Pokémon Center after beating Wattson

- Shiny Charm available in two places - first in Player's PC from the start of the game, second in Fortree City by completing a quest hinted at by an old man in one of the houses
 - Shiny rerolls stack with the second Shiny Charm! Having both doubles the rolls!
- Items related to Legendary Pokémon events (Old Sea Map for Mew, Mystic Ticket for Ho-oh/Lugia, and Aurora Ticket for Deoxys) available from Sailor with an eye patch in Mossdeep

Other Helpful Items

- Wishing Stars - 1 found on ground near Rustboro City Wishing Well, and some are given by a little girl in Rustboro and a Hiker in Granite Cave. They can be bought from an NPC on Mt. Chimney after clearing out Team Aqua/Magma, similar to the Lava Cookie old lady. A few are found across the region, mostly the western half of Hoenn.
- Nature Mints - bought in the Pretty Petal floral shop on Route 104, south of Rustboro
- Many important battle items like Ability Capsules, EXP Candies, Stat Feathers, Choice held items, and Stat Vitamins can be bought at the Happy Trainer Merchant Stand in Petalburg
 - Limited selection at first, but more unlocks with each badge

SCUBA SAFARI - Pacifidlog Town Diving Minigame

Pacifidlog Town has undergone some renovations to make it relevant to your adventure in Pokémon Emerald Seaglass! The biggest change is the addition of the Diving Minigame, accessed by speaking to the Sailor NPC on the eastern platform of Pacifidlog. To play this, you do not need the Dive HM! You are basically teleported to a patchwork of underwater areas with encounters of varying levels and species, playing a game combining aspects of the Safari zone and the Bug Catching contest of Johto.

Rules and Guidelines:

1. While underwater, you only have 200 "steps" (tiles to swim) before the game ends.
2. You only have 5 encounters total to capture a Pokémon for scoring. After 5 encounters, your time ends.
3. Pokémon are judged based on rarity, level, IVs, and remaining HP.
4. Different areas and patches of seagrass often have different encounter tables.

Score Calculation: $\text{Rarity Score} + (\text{Level} * 3) + (\text{HP IV} + \text{ATK IV} + \text{DEF IV} + \text{SP_ATK IV} + \text{SP_DEF IV} + \text{SPD IV}) + \text{Remaining HP} = \text{Score}$

(Example: Pokémon with a rarity score of 100, level 5, perfect 31 IVs in all stats, and with 25 HP remaining would be calculated as $100 + 15 + (31 * 6) + 25 = 326$.)

Rewards: The first time you play the minigame, setting your first high score, you receive the HM07 Waterfall. After this, rewards are randomly selected from a pool of treasures (shards, nuggets, pearls, etc.), evolution items, and other fun items. When a new high score is set, the player is rewarded with 5 Heart Scales and a random TM from a pool of good moves (Flamethrower, Dragon Claw, Thunderbolt, etc.).

PINBALL MINIGAME

Pinball machines are available to play in Mauville Game Corner and Mossdeep Game Corner! There are four different types of pinball games to play: Meowth Pinball, Gengar Pinball, Seel Pinball, and Diglett Pinball, all with different play styles.

Rewards: By winning a pinball game, you win 1 “Pinball Point”, which can be exchanged for rare items and Pokémon. In Mauville, you can exchange Pinball Points for apricorn (and other rare) Pokéballs and eggs of random Alolan forms! In Mossdeep, you can exchange Pinball Points for random rare items, and you can exchange money for more Points.

RUSTBORO CITY WISHING WELL

On the east side of Rustboro City, an old Wishing Well can be accessed. By throwing a Wishing Star down the well, a random Pokémon appears, similar to Wonder Trade or a Gacha system. If you’re lucky, you can get some pretty cool rare Pokémon early on like this!

DexNav

After obtaining the Pokédex from Professor Birch, your Mom will catch you leaving Littleroot and install the DexNav! Accessible in the Start Menu, the DexNav allows you to see how many Pokémon are in an area, and after seeing one for the first time, you can target them.

As you explore, occasionally (roughly every ~200 steps), the DexNav will detect a Pokémon nearby automatically for you to find. 50% of the time, these Pokémon are considered “Hidden Pokémon”, which can only be found through this method. No Pokémon are exclusive to being hidden, but they allow for more options in the early game, and more variety in wild encounters overall.

Many features of the ORAS DexNav have been ported over. You can chain Pokémon to increase shiny odds, find rare egg moves, and increase IVs. Use the “**JUSTSHOWME**” cheat code to see all DexNav Pokémon!

Mystery Gifts / Cheat Codes

In-game cheat codes exist to help give players with alternative play styles more options! These codes include rare candies, master balls, and other items that can help people avoid the grind. The codes are listed below:

- 9RARECANDY : Gives 99 Rare Candies every time it is entered
- MASTERBALL : Gives 99 Master Balls every time it is entered
- ILOVSPHEAL : Gives a Level 5 Spheal with optimized defensive stats. Has the moves Bouncy Bubble, Super Fang, Slack Off, and Freeze Dry. Fun alternative starter!
- ILOVEAIPOM : Gives a Level 5 Aipom with an Eviolite. Has the moves Dizzy Punch, Karate Chop, Victory Dance, and Bullet Punch. Probably very overpowered alternative starter, but hey, I'm the developer I get to play favorites
- ILOVEKANTO : Gives the Kanto starters, all at level 5
- ILOVEJOHTO : Gives Johto starters, all level 5
- ILOVEHOENN : Gives Hoenn starters, all level 5
- ILOVEAPPLE : Gives Level 5 Applin holding Syrupy Apple evolution item
- ILOVETINKA : Gives Level 5 Tinkatink holding a Nugget
- JUSTSHOWME: Automatically shows all Pokémon on the DexNav menu, whether or not the player has seen them. Also allows all Pokémon to be hunted before being encountered!
- WISHINGSTR: Gives 99 Wishing Stars to be used in the Rustboro Wishing Well
- GIMMENUGS!: Gives 99 Nuggets, effectively acting as infinite money

BELOW CODES ARE FOR **MONOTYPE RUNS** (or for those who want to use unique types from the start):

- "MONO BUG" - gives one random, first stage Bug-type Pokémon
- "MONO DARK" - gives one random, first stage Dark-type Pokémon
- "MONO DRAGN" - gives one random, first stage Dragon-type Pokémon
- "MONO ELECT" - gives one random, first stage Electric-type Pokémon
- "MONO FAIRY" - gives one random, first stage Fairy-type Pokémon
- "MONO FIGHT" - gives one random, first stage Fighting-type Pokémon
- "MONO FIRE" - gives one random, first stage Fire-type Pokémon
- "MONO FLYIN" - gives one random, first stage Flying-type Pokémon
- "MONO GHOST" - gives one random, first stage Ghost-type Pokémon
- "MONO GRASS" - gives one random, first stage Grass-type Pokémon

- “MONO GROUND” - gives one random, first stage Ground-type Pokémon
- “MONO ICE” - gives one random, first stage Ice-type Pokémon
- “MONO NORMAL” - gives one random, first stage Normal-type Pokémon
- “MONO POISON” - gives one random, first stage Poison-type Pokémon
- “MONO PSYCHIC” - gives one random, first stage Psychic-type Pokémon
- “MONO ROCK” - gives one random, first stage Rock-type Pokémon
- “MONO STEEL” - gives one random, first stage Steel-type Pokémon
- “MONO WATER” - gives one random, first stage Water-type Pokémon

Known Issues

Before discussing bugs in the Discord channel, please check to see if your problem is considered a known issue (meaning I know about it, and I am likely working on a fix!)

IMPORTANT ISSUES:

- Graphics flicker after every turn in battle
 - This is semi-intentional! Resetting the graphics prevents many freezes and move animation problems.
- DexNav can occasionally totally bug out the game, best to save before chaining
 - Cannot consistently replicate, seems to happen most often in caves?
- Level Reset Bug - seemingly for 1 battle, a Pokémon's level is lowered, but they regain experience up to their normal level again after battle. Weird, and cannot be consistently replicated
- Safari Zone battles function as regular battles unintentionally

VISUAL ISSUES:

- PP number text is yellow when learning new move
- Swinub and Piloswine follower palettes bugged (Issue with pokeemerald-expansion: <https://github.com/rh-hideout/pokeemerald-expansion/issues/5147>)

OTHER ISSUES:

- Pinball physics are far from perfect, but tbh I think that adds to the charm lol
 - If it glitches out and freezes, press “Start” to force-leave the minigame
